- Odour hydro-carbon

POTENTIAL HAZARD (DANGER)

- Highly flammable. Will be easily ignited by sparks or flames
- Vapours may form explosive mixtures with air
- Run-off into confined spaces, basements and sewers will create fire or explosion hazards
- Fire will produce irritating and toxic gasses and smoke
- Runoff from fire control or dilution water may cause environmental contamination

PERSONAL PROTECTIVE EQUIPMENT

- Protective goggles or face shields
- Protective gloves
- Protective shoes
- Eye-wash bottles and water

EMERGENCY RESPONSE EQUIPMENT

- Broom
- Shovel
- Dry chemical, CO₂, water spray or regular foam

DRIVER FIRST ACTIONS – Only if it can be carried out without personal risk

- Contact the emergency services
- Keep upwind
- No smoking flames allowed
- As an immediate precaution, isolate the spill area for at least 50 metres in all directions

DRIVER SPECIAL/ADDITIONAL ACTIONS - Only if it can be carried out without personal risk

- ELIMINATE all ignition sources (no smoking, flares, sparks or flames in the area)
- Do not touch or walk through the spilled material
- Stop leaks if you can do it without risk
- Use clean, non-sparking tools to collect absorbed material

DRIVER ACTIONS IN CASE OF FIRE - Only if it can be carried out without personal risk

- Dry chemical, CO₂, water spray, regular foam or sand
- If it can be done safely, move undamaged containers away from the area around the fire
- ALWAYS stay away from tanks engulfed in fire.

FIRST AID

- In case of contact with substance, immediately flush skin or eyes for at least 20 minutes
- Move victim to fresh air if it can be done safely
- Keep victim calm and warm.
- Give artificial respiration if victim is not breathing
- Call for emergency medical care

SPECIAL INFORMATION FOR EMERGENCY SERVICES

- Avoid aiming straight or solid streams directly onto the product
- Cool containers with flooding quantities of water until well after fire is out.
- ALWAYS stay away from tanks engulfed in fire.

ADDITIONAL INFORMATION
